

Workers at Radio Havana Cuba Reject Actions of OAS

Havana, April 4 (RHC) -- Workers at Radio Havana Cuba have expressed their solidarity with the Venezuelan people and government against the interventionist actions of the OAS, the Organization of American States.

Through a communiqué, journalists and announcers at Radio Havana Cuba noted that the OAS also carried out a coup against the temporary presidency of the permanent council, headed since April 1st by Bolivia.

They also emphasized that since its inception, the regional mechanism has conspired against governments that are unfriendly to the United States and ignores military coups and invasions led or supported by Washington.
