

Canadian Prime Minister Justin Trudeau faced With pipeline protest in London

London, April 23 (RHC)-- In Great Britain, protesters blocked entry to Canada's main embassy in London, erecting a mock oil pipeline marked with the words: "Crudeau Oil."

The protest came as Canadian Prime Minister Justin Trudeau arrived in London for talks with Prime Minister Theresa May. The demonstrators want Trudeau to end his support for an expansion of the Trans Mountain pipeline, which would accelerate oil shipments from Canada's tar sands region to a terminal near Vancouver.
