

Republican Party to Endorse Trump's Wall Along U.S.-Mexico Border

Washington, July 16 (RHC)-- The U.S. Republican Party is expected to formally endorse Donald Trump's proposal to build a wall along the U.S.-Mexico border. Members of the Republican National Convention platform committee successfully petitioned to have language calling for the wall added to the platform text.

The proposal has sparked significant opposition across the United States. Experts have also cast doubt on the overall feasibility of Trump's border wall.
