Cuba has already locked up a spot in the NORCECA Olympic Qualifier next January, but still has

the goal to win this tournament. The U.S. is already qualified for the 2020 Olympics.

Cuba head coach Yosvany Muñoz Perez: "I'm very happy because my team performed at a high level against Puerto Rico. Congratulations to Puerto Rico for a good match. Our serving and blocking was working very well today, it made the difference for our team."

Puerto Rico, head coach, Oswald Antonetti: "We played better at the end, but it was a matter that we couldn't close sets. We are disappointed but it's not over yet and we'll have to come to play tomorrow."

Puerto Rico, captain, Maurice Torres: "We made a lot of stupid errors – that's all I can say. It's the same problem we've had this entire tournament; when it counts, we make too many errors. We have one more chance tomorrow and if we lose tomorrow, we lose our chance of ever going to the Olympics in 2020. We're going to regroup and keep going."
