

## U.S. Drone Strike Kills Two in Somalia

Mogadishu, October 30 (RHC)-- A U.S. drone strike in Somalia has left at least two people dead.

The strike hit a vehicle reportedly carrying top leaders of the militant group al-Shabab. One of the victims was said to be the Shabab's top explosives expert, known as Anta.

It was the first known U.S. military action in Somalia since a failed raid on a seaside villa earlier this month.
