

Death Toll from Cholera in Yemen Outbreak Rises to 187

Sanaa, May 18 (RHC)-- In Yemen, the death toll from a cholera outbreak has risen to 187, as the U.S.-backed, Saudi-led bombing campaign has devastated the country's health, water, sewage and sanitation systems.

According to news sources, there are more than 11,000 reported cases of cholera in Yemen, and the International Committee for the Red Cross warns the disease is spreading.
