

U.S. President Trump to Nominate Climate Denier Congressmember Jim Bridenstine to Head NASA

Washington, September 6 (RHC)-- U.S. President Donald Trump is slated to nominate Republican Oklahoma Congressmember Jim Bridenstine to head NASA, the National Aeronautics and Space Administration. Bridenstine has no science credentials and has repeatedly denied the human impact on climate change.

NASA conducts a significant amount of global climate change research. In 2013, Bridenstine took to the House floor to demand President Barack Obama apologize for funding climate change research.
