

Germany Halts Weapons Sales to Saudi Arabia Over War in Yemen

Berlin, January 24 (RHC)-- Germany says it's halting weapons sales to Saudi Arabia and other parties involved in the devastating, ongoing war in Yemen.

Human rights groups are calling on the United States, Britain and France to also stop selling arms to Saudi Arabia, which has been accused of committing war crimes in Yemen.

Washington has made no comment about human rights violations by the Saudi regime, continuing to sell millions of dollars worth of military equipment to Riyadh.
