

Israel planning “large and painful military operation” in Gaza

Tel Aviv, July 24 (RHC)-- In southern Israel, Defense Minister Avigdor Lieberman announced that Israel was preparing to launch a “large and painful military operation” that he said would rival the 2014 assault on Gaza, which killed over 2,300 Palestinians while leaving 17,000 injured.

This comes as Israel further tightened its blockade on the Gaza Strip, barring deliveries of natural gas and other fuels. In a statement, the U.N.'s Office for the Coordination of Humanitarian Affairs said Israel's fuel blockade would exacerbate the already dire living conditions in Gaza, and raised concerns of collective punishment.
