

Foreign minister reiterates that Cuba is against terrorism and war

Havana, January 21 (RHC)--- Cuba has never allowed, nor it will ever allow the use of its territory for the perpetration of terrorist actions against any State, the Cuban foreign minister said Monday.

Bruno Rodríguez affirmed that the island has strictly complied with its role as guarantor and alternative venue of the Peace Dialogue between the Colombian government and the ELN.

In a tweet, the island's top diplomat reiterated that Cuba is against terrorism and war and for the defense of peace.

"With the moral of having been victims of state terrorism for decades and being able to show an unblemished record, we condemn all forms of terrorism, regardless of its motivations."

As a result of the attack against a Police academy last week, President Iván Duque, requested Cuba to arrest the ELN negotiating team that is supposedly in Havana and immediately extradite

them to Colombia.

The island's Foreign Ministry replied that it will respect the protocols of peace dialogues.
