

Chinese search Vessel Discovers Pulse Signal in Indian Ocean

Beijing, April 5 (Xinhua - RHC) -- Chinese patrol ship Haixun 01, searching for the missing Malaysian passenger jet MH370, detected a pulse signal with a frequency of 37.5kHz per second in southern Indian Ocean waters on Saturday.

A black box detector deployed by the Haixun 01 picked up the signal at around 25 degrees south latitude and 101 degrees east longitude. It is yet to be established whether it is related to the missing jet.
