

Kuwait Science Club Discusses Cooperation with Visiting Cuban Delegation

Kuwait, April 14 (RHC-KUNA) – The Kuwait Science Club and a visiting delegation from the Academy of Sciences of Cuba discussed on Monday, means of cooperation in all fields of scientific research.

The Chairman of Kuwait Science Club, Ayad Al-Kharafi, said in a statement that the Cuban delegation was familiarized, during the meeting with the Club's history, activities, programs and services.

Al-Kharafi added that the Club is one of the significant destinations in the country that encourages young people to pursue their interests and develop their skills in scientific research.

For his part, the president of the Cuban Academy of Sciences, Fidel Castro Diaz-Balart, shed light on some of the important research subjects being conducted in the academy and hoped for more cooperation between his academy and Kuwait Science Club in all spheres.
