

Cuba awaits results of investigation of attack on island's embassy in Washington, DC

Havana, May 16 (RHC)-- Cuba awaits the transparent results of an investigation into the attack on its diplomatic headquarters in Washington and the measures taken against the terrorist, Cuban President Miguel Díaz Canel said.

The president ratified the denunciation to the U.S. State Department of the aggression carried out with shots against the Cuban embassy in the U.S. capital, carried out last April 30th by a citizen linked to anti-Cuban sectors.

"Terrorism is not a mental disorder. The U.S. is not cooperating in the fight against terrorism," Diaz-Canel said on his official Twitter account.
