

Cuba Hosts Congress of Otolaryngology-Head and Neck Surgery

Havana, May 6 (RHC) — Delegates from 21 nations of America, Europe and Africa have confirmed their attendance to the IX Cuban Congress of Otolaryngology-Head and Neck Surgery to be held from May 17 to 21 in Havana.

The working sessions will take place in Havana's Conference Center, concurrently with the II Meeting of Otolaryngology Specialists graduated in Cuba and the V Congress of Speech Therapy and Phonetics.

According to Professor Antonio Paz Cordova, president of the organizing committee, the event is an opportunity to bring together professionals from Cuba and abroad to exchange information and experiences in this field and related sciences.
