Mexico reports 7,051 new cases of coronavirus, 836 more deaths

Mexico City, July 15 (RHC)-- Mexico's Health Ministry has reported 7,051 new confirmed coronavirus infections and 836 additional fatalities, bringing the total in the country to 311,486 cases and 36,327 deaths, according to Reuters news agency.

The government has said the real number of infected people is likely significantly higher than the confirmed cases.
