

WHO reports record daily increase in global coronavirus cases

Geneva, July 19 (RHC)-- The World Health Organization reported a record increase in global coronavirus cases, with the total rising by 237,743 in 24 hours.

The biggest increases were from the United States, Brazil, India and South Africa, according to a daily report. The previous WHO record for new cases was 230,370 on July 12th. Deaths have held steady and averaged less than 5,000 a day in July.

Total global coronavirus cases were approaching 14 million on Friday, according to a Reuters tally, marking another milestone in the spread of the disease that has killed more than 590,000 people in seven months.
