

Cuba and Poland call for greater trade and cooperation ties

Havana, November 4 (RHC)-- Foreign Minister Bruno Rodríguez stressed this Wednesday that Cuba and Poland expressed their willingness to deepen economic, trade, and cooperation ties.

On Twitter, the Minister said that he received the European nation's ambassador to Cuba, Anna Piekosz, who is finishing her mission in Havana.

"We confirm the willingness to deepen economic, commercial and cooperation links, as well as in other areas of mutual interest," Rodríguez wrote.

On the other hand, the Caribbean Foreign Affairs Ministry informed that the Cuban Ambassador in Poland, Jorge Martí Martínez, held an exchange with the president of the Senate of that country, Tomasz Grodzki.

In their talks, they covered aspects related to the parliamentary exchange, the two States' experience in facing the pandemic, and the good progress of the bilateral ties.
