Heavily-armed Trump supporters hit the streets.

Philadelphia, November 8 (RHC)-- Supporters of U.S. President Donald Trump, some of whom are heavily armed, have hit the streets, including in the states of Georgia, Arizona and Pennsylvania, which

his rival, now President-elect Joe Biden, flipped.

"You've come heavily armed as if you're going to war," Sky News Special Correspondent Alex Crawford is heard telling some of the Trump supporters, whose leader has allegedly lost the presidential race but would not accept the results. Several of the Trump supporters responded that they were there "for security," claiming that Biden "will destroy our nation."
