

Mexico's coronavirus cases exceed one million; death toll nears 100,000

Mexico City, November 18 (RHC)-- In Mexico, confirmed coronavirus cases have topped one million — although the true number of infections is likely many times higher. Mexico's official COVID-19 death toll is nearing 100,000.

Pakistan has banned public rallies after a spike in COVID-19 cases. Russia has turned an ice rink into a temporary hospital as its cases reached a daily record of nearly 23,000 new infections.

Iran also reported its largest daily increase, with over 13,000 confirmed cases.
