Havana, March 4 (RHC)-- The national director of Epidemiology, Dr. Francisco Durán, reported on Thursday three deaths and 807 new cases for Covid-19 during the last 24 hours, for an accumulated 53,3081 infections and 336 deaths in the nation since March 2020.

During a televised briefing, the specialist informed that by midnight, 20,001 patients had been admitted, of which 3,424 were suspected, 12,002 were under epidemiological surveillance and 4,575 were confirmed.

Havana reported a discrete decrease in the number of cases, with 390, but remains as the island's epicenter of the disease. In terms of most cases, it was followed by Camaguey with 63, and Mayabeque with 65.
