

Cuba reports 7 745 new COVID-19 cases and 65 deaths

Havana, July 22 (RHC)—Cuban health authorities reported on Thursday 65 COVID-19 related deaths and 7 745 cases, a new record for new cases in a single day.

In his daily televised press briefing, the National Director of Epidemiology said there were 35 649 active cases hospitalized.

The Caribbean island now accumulates 308 599 cases and 2 137 deaths.

The provinces with the most infections were Matanzas with 1773, Havana with 1217, Ciego de Avila with 973, and Cienfuegos with 840.

From March 2020 to date 308,599 citizens became ill with SARS-CoV-2 in Cuba.

Dr. Duran reported that 8 388 988 anti-Covid-19 doses were administered in the Caribbean island through the mechanisms of health intervention, intervention study and clinical trials.
