Caracas, September 5 (RHC)-- Venezuelan Vice President Delcy Rodríguez has rejected the attempts of Colombian Foreign Minister Marta Lucía Ramírez to interfere in the dialogue process between the Government and the oppositions in the Mexican capital.

"Venezuela repudiates the statements of the vice president of war and violence Marta Lucía Ramírez, who meddles in the internal affairs of our homeland," the Venezuelan vice president wrote on her Twitter account. For the Venezuelan vice president, the head of foreign policy and also vice-president of Colombia is "violating international legality and showing a profound ignorance of her office as foreign minister" -- asking her to mind "her own business."
