

Haitian prime minister, accused of aiding president's murder, fires justice minister

Political turmoil in Haiti is growing after Prime Minister Ariel Henry replaced the country's justice minister Thursday, just days after firing a top public prosecutor who sought to charge Henry in connection with the July assassination of President Jovenel Moïse.

Port-au-Prince, September 17 (RHC)-- Political turmoil in Haiti is growing after Prime Minister Ariel Henry replaced the country's justice minister Thursday, just days after firing a top public prosecutor who sought to charge Henry in connection with the July assassination of President Jovenel Moïse.

The prosecutor, who also tried to prevent Henry from leaving Haiti, said the prime minister had communicated with a key suspect twice on the night Moïse was killed. On Wednesday, the head of Haiti's Council of Ministers resigned in response to the prosecutor's firing.
