Havana, October 1 (RHC)-- During the United Nations General Assembly to commemorate its 76th anniversary (UNGA 76) on Friday, Cuban Foreign Minister Bruno Rodríguez said that the continued international call to eliminate the U.S. economic, commercial and financial blockade against our country was reaffirmed.

The Cuban Foreign Minister points out in his Twitter account that in that international meeting, among the eight most discussed topics in the speeches was the call for the lifting of the inhumane siege, deliberately intensified in the midst of the Covid-19 pandemic.

During the 76th UNGA, several nations called attention to the tightening of the blockade against Cuba, which has been in place for more than six decades; they also urged Washington to put an end to this policy, which they described as a relic of history. (Source: ACN)
