**Havana, August 18 (RHC)--** Two-time Olympic champion Alberto Juantorena Danger, president of the Cuban Athletics Federation, is reportedly improving but still under observation according to the medical report, issued at noon on August 17.

Havana, August 18 (RHC)-- Two-time Olympic champion Alberto Juantorena Danger, president of the Cuban Athletics Federation, is reportedly improving but still under observation according to the medical report, issued at noon on August 17.

Dr. Luis Enrique Martínez Rivero, a specialist in intensive and emergency medicine for adults at the Pedro Kourí Tropical Medicine Institute (IPK), where Juantorena, 71, remains hospitalized.

- The patient is reported to be under observation.
- On Tuesday, ventilatory support was removed and the patient is breathing spontaneously with supplemental oxygen.

- There have been no complications from the respiratory point of view.
- The cardiovascular system is also stable and from the neurological point of view he is vigilant, awake, cooperative and feeding himself.
- There have been no complications in the evolution of the patient.
- Strict observation is maintained and rehabilitation therapy will be started.
