

Cuba Denounces Subversive U.S. Actions at United Nations

Havana, August 15 (RHC) — Cuba has asked United Nations Secretary General Ban Ki-moon to publish as official documents the denunciation against the most recent subversive U.S. actions against the island.

The documents include the statement by the Director General of the United States Division at the Cuban Foreign Ministry, Josefina Vidal, and a special statement issued by the Bolivarian Alliance of the Peoples of our Americas (ALBA).

The Associated Press news agency recently revealed a plan funded by the U.S. Agency for International Development (USAID) to promote internal destabilization in Cuba.

The plan tried to use young Latin Americans recruited in 2009 to encourage Cuban youths to act against constitutional order in Cuba.
