

Activists in Belgium Blast Subversive U.S. anti-Cuba Programs

Brussels, August 29 (RHC) — The president of the Friends of Cuba in Belgium, Alexandra Dirckx, released a message by her organization condemning the U.S. subversive programs against Cuba.

The message refers to the illegal action recently exposed by the Associated Press about plans to encourage young Cubans into undertake subversive acts under the umbrella of the U.S. Agency for International Development (USAID), which recruited Latin American youths to carry out the subversive program.

The Belgian organization expresses its indignation and condemnation of the U.S. plans against the Cuban Revolution and reiterates its firm support of the island against Washington's blockade and in favor of the release of the anti-terrorist fighters imprisoned in the United States since 1998.
