Cornel West moves to Green Party in 2024 U.S. presidential run

New York, June 14 (RHC)-- U.S. author, civil rights activist and professor of philosophy, Cornel West, has switched party affiliation and is now running to be the Green Party's 2024 presidential nominee. Cornel West announced earlier this month he would run as a candidate with the People's Party. West confirmed the news on "The Katie Halper Show."

Cornel West said: "Which means when it comes to infrastructure and institution, it's much broader and deeper, access to the ballot much broader. But in the end, as you know, any candidacy to run the empire in order to dismantle the empire has to be part of a movement."
