

Trump campaign reverses claim that the former president illegally purchased a handgun

Image not found or type unknown

Palm Beach, September 27 (RHC)-- In the U.S., Donald Trump's 2024 presidential campaign team is denying the former president purchased a Glock pistol during a visit to a gun store in South Carolina Monday.

Video widely shared on social media shows Trump admiring the weapon, which was decorated with Trump's name and likeness, and saying he'd like to buy it.

Federal law bars the sale of firearms to people who are under indictment for crimes carrying sentences of more than a year — which includes The Donald.
