Washington, February 19 (RHC)-- Solidarity protests against the genocidal Israeli war of aggression against Gaza continue around the world.

In India, workers with the Water Transport Workers Federation have vowed not to load or unload weapons to Israel, saying they “always stand against the war and killing of innocent people.”

In the United States, the African Methodist Episcopal Church Bishops Council called on the Joe Biden administration to end funding for what it called Israel’s “mass genocide.”

In Michigan, Rashida Tlaib, the only Palestinian American member of the U.S. Congress, is urging Democrats to vote “uncommitted” in next Tuesday’s presidential primary to protest President Biden’s complicity in Israel’s assault on Gaza.
