

New video shows Israeli military killing innocent Gazan walking with airdropped aid package

New York, April 5 (RHC)-- Another video has emerged showing Israeli forces shooting an unarmed Palestinian as he attempted to collect aid.

The footage, aired on Al Jazeera, shows people retrieving airdropped aid packages in northern Gaza.

One man is then singled out and shot as he was walking with an aid package. His lifeless body is then left to a pair of dogs.

One political observer commented that it appeared as if the Palestinian was the target of a video "kill" game implemented by Israeli sharp shooters.
