

*Another Israeli attack in Beit
Hanoun leaves more than 25
civilians dead*

Beit Hanoun, December 11 (RHC)-- Medical sources have confirmed that the bombing targeted a home belonging to the Kahlout family, destroying the home over the heads of its residents.

In a new display of violence, more than 25 Palestinian civilians, including children and women, were killed last night in an airstrike carried out by the Israeli occupation forces in Beit Hanoun, north of the Gaza Strip.

Medical sources have confirmed that the bombing targeted a home belonging to the Kahlout family, destroying the home over the heads of its residents.

Since October 7, 2023, the Israeli military aggression against the Palestinian people has been relentless. This latest attack is just one more in a series of massacres that have left a devastating toll: to date, 44,758 Palestinian citizens have been reported dead, mostly women and children, and more than 106,134 injured.

The international community is watching with growing concern as airstrikes continue to deliberately target residential buildings in all areas of Gaza.

The humanitarian situation in Gaza is critical. Families live under constant threat and fear as they face the destruction of their homes and the irreparable loss of loved ones. International bodies point out that Israel is committing genocide against the Palestinian population in the occupied territories; nothing more has been done so far, the massacres continue.
