

Erick Hernandez seeks to further extend his legacy

Erick Hernández

Havana, Mar 30 (RHC) The legend of ball control in Cuba, Erick Hernandez Sanchez, will seek, on April 5, to continue expanding his legend when he tries to add a new record to his list of achievements.

According to what the athlete himself told us in a conversation with Radio Habana Cuba, from 8:00 a.m. on that day, the Copacabana Hotel will witness the attempt to break the record of more than 10 hours of uninterrupted dominating with head and feet (without using his thighs).

If he succeeds, he will add another chapter to his already extraordinary sporting career in this exhausting and difficult modality.

Holder of several universal records, including the homologation of the prestigious Guinness Book for some of them, Erick was a pioneer, along with his brother, of this specialty. Nowadays, he remains as the good wine, trying to put his legacy even higher, without thinking that for quite some time he has been a reference for the current and future generations of ball dominators in our country.
