Gaza City, May 2 (RHC)-- Israeli attacks have killed at least 18 people in Gaza over the last 24 hours, the Gaza Health Ministry said on Thursday. Israel's genocidal war rages on in Gaza, killing many more innocent civilians in relentless air and artillery strikes.

Israeli attacks have killed at least 18 people in Gaza over the last 24 hours, the Gaza Health Ministry said on Thursday. One of the latest attacks targeted a house east of the southern city of Khan Yunis, killing several civilians and injuring many others.

In central Gaza, a drone strike on Deir al-Balah killed one Palestinian and wounded dozens. Two Palestinians, including a child, were killed in a drone strike on the Shujaiya neighborhood of Gaza City, while another drone attack killed a civilian and injured dozens in Deir al-Balah.

In the north, an Israeli strike near the Jabaliya refugee camp killed a young girl and injured two civilians.

Earlier Israeli strikes killed more than a dozen civilians across northern and central Gaza, including in the Al-Mawasi area, west of Rafah.

The Israeli genocide has killed over 52,400 Palestinians, so far, leaving more than 118,000 others injured.

The fatality figure includes thousands of civilians who have lost their lives since the resumption of the regime's onslaught on March 18.

In November 2024, the International Criminal Court issued arrest warrants for Netanyahu and the former Israeli minister for military affairs, Yoav Gallant, for war crimes and crimes against humanity in Gaza. Israel also faces a genocide case at the International Court of Justice for its war on Gaza.
