

Foreign policy for sale: Trump cryptocurrency venture secures major investment from UAE firm

Washington, May 4 (RHC)-- The founder of the Trump family's cryptocurrency venture said Thursday that a fund backed by Abu Dhabi will make a \$2 billion investment in crypto exchange Binance using a Trump-branded crypto coin.

The deal could generate hundreds of millions of dollars for the Trump family, constituting a major contribution by a foreign government to the president of the United States.

Robert Weissman, co-president of Public Citizen, responded: "This is far more than is captured by the term 'conflict of interest.' It is foreign policy for sale and justice for sale."
