

*We will not emigrate:
Palestinians refuse to be expelled
as UN group warns of another
Nakba*

United Nation, May 13 (RHC)-- A United Nations special committee has warned the world could be witnessing “another Nakba” as Israel moves to forcibly displace Palestinians in Gaza and the occupied West Bank.

Despite the ongoing attacks, Palestinians in Gaza say they refuse to leave their homes. One area resident, Mohammed Badr, told journalists: “We will not emigrate from Gaza, no matter how difficult the circumstances. Even if there’s killings, even if there’s bombings, if there’s no medicine, no food, nothing to drink, no clothing and no shelter, we are not leaving the Gaza Strip. If they are betting on our departure, NO. The world might vanish, leave. The fish might migrate from the sea. But we will not emigrate.”
