Cuba vigorously condemns the attacks perpetrated by Israel against the Islamic Republic of Iran

The United States and Israel will have to respond to the consequences of an unjustified war against Iran

Declaration of the Ministry of Foreign Affairs of the Republic of Cuba

Cuba vigorously condemns the attacks perpetrated by Israel against the Islamic Republic of Iran

Cuba vigorously condemns the attacks perpetrated by Israel against the Islamic Republic of Iran

The Cuban Government observes with extreme concern the events taking place in the Middle East and strongly condemns the attacks perpetrated by Israel in the early hours of morning on June 13, 2025 and the threat of war against the Islamic Republic of Iran, in flagrant violation of the United Nations Charter and International Law, including the principles of sovereignty and the no threat or use of force against the territorial integrity of any State.

The aggressive policy of the State of Israel and its reprehensible and irresponsible actions are only possible thanks to the military, financial, logistic and political support granted by the government of the United States, thus placing international and regional stability and security in greater danger, with unforeseeable consequences for humanity.

Cuba reaffirms its solidarity with the people and the government of the Islamic Republic of Iran and alerts to the danger of a further escalation in the region and a larger conflagration and calls on the international community, particularly the Security Council and the United Nations General Assembly, to exercise their primary responsibility to maintain international peace and security and put an immediate end to this aggression and the impunity with which the Zionist regime is acting.

The ceasing of the genocide against Palestine is of the essence.

Once again, we reiterate that peace in the Middle East should be based on a comprehensive, fair and lasting solution of the Israeli-Palestinian conflict, which includes the creation of a sovereign and independent Palestinian State based on the pre-1967 borders, with East Jerusalem as its capital.
