**Carlos Ramos**

Havana, Jun 24 (RHC) - Although they know they will find a very complex panorama, Cuban divers aspire to at least two medals at the Asuncion 2025 Pan American Junior Games.

This was confirmed to JIT by the national commissioner of the discipline, Milagros González, who said that the best options are focused on the men's events, especially with Carlos Daniel Ramos and Frank Abel Rosales.

From the individual platform will be Carlos Daniel, recent winner in the Panam Aquatics Championship in Medellin 2025, in which the quotas for the continental competition scheduled for August 9 to 23 were distributed.

Frank Abel's triumph in the one and three-meter springboards also stood out in that qualifying competition, but both will face a higher level in the Paraguayan capital with Americans and Mexicans as rivals to watch out for.
