## **Cuba condemns Israeli bombings of Lebanon and Yemen**

Havana, July 8 (RHC)-- Cuban Foreign Minister Bruno Rodríguez condemned today, through his X account, the Israeli bombings of Lebanon and vital ports and infrastructure in Yemen.

Through the social network, the Cuban foreign minister stated that these "attacks are part of the aggressive policy to reshape the Middle East" and that they jeopardize progress toward regional peace.

These combative actions constitute a clear violation of the Lebanese ceasefire agreement, which has demanded the Israeli withdrawal from its natural territory.
