

Trump tries to keep secret renovation costs for Qatari luxury jet gifted to the U.S. president

New York, July 29 (RHC)-- The New York Times reveals the Trump administration is trying to keep secret how much it will cost to renovate the \$400 million jumbo luxury jet recently gifted to the Trump administration from the royal family of Qatar.

The Times noted that \$934 million has been mysteriously transferred from a project to modernize the U.S. nuclear arsenal.

While federal funds will pay for the renovations, the plane will be transferred to Trump and his presidential library after he leaves office.
