

Boko Haram Kills Dozens in New Attacks Across Nigeria

Abuja, December 1 (RHC)-- The militant group Boko Haram has carried out several attacks in Nigeria. Earlier today, a twin blast was reported in the area where dozens were killed in a market bombing last week.

The bombings follow an attack that killed at least 120 people on Friday at a mosque in the northern city of Kano. Scores were also reportedly killed on Saturday when Boko Haram fighters raided a town in Borno state.
