

China to Achieve 7.2 Percent of GDP Growth in 2015

BEIJING, March 24 (Xinhua) -- China's economy will grow 7.2 percent in 2015 and 7.0 percent in 2016, the Asian Development Bank (ADB) predicted in a report published Tuesday.

China is likely to retain its position as the biggest contributor to global economic growth in both 2015 and 2016, the Manila-based bank said in the Asian Development Outlook 2015, its flagship annual economic publication.
