Conference Saloon No. 7

Program

Havana, Mar 25, (RHC), – Cuba's Deputy Health Minister, Doctor Marcia Cobas, announced that 28 ministers have already confirmed their attendance to the International Health Convention that will be held in this capital on April 20-24.

Over 600 papers by foreign delegates have been received and a dozen of the world's most prestigious medical sciences publishing houses will be present, among them three of the United States, specified the Deputy Minister.

The 13th edition of the Health for All Commercial Fair will be held parallel to this meeting, at Havana's Pabexpo Pavilion, in which 25 nations will be represented, including Cuba, and will contribute to boost negotiations and the commercialization of the island's medical services, emphasized Cobas.

From now on, the Fair –the last edition of which took place 10 years ago- will take place every two and a half years, she added.

In statements to ACN, Doctor Iliana Morales, executive secretary of Cuba/Salud 2015 recalled that in 2005 Health for All was attended by a high number of international entrepreneurs and that on this occasion there will also be keynote lectures, round tables and business rounds.

The Convention will welcome over 1,000 delegates from all parts of the world, more than 400 of them Cubans, while over 100 personalities have confirmed their participation, concluded Doctor Morales.
