

Nine-Year-Old Victim Reportedly Pregnant After Rape in ISIS Captivity

Berlin, April 15 (RHC)-- A nine-year-old girl is reportedly pregnant after being gang-raped in captivity by the militant group Islamic State in Iraq. The young girl is one of more than 200 Yazidi Christians released by ISIS last week.

She has been flown to Germany for medical treatment. Aid workers say she is so young, she could die if she delivers the baby.
