

Yemen Violence Rages as Peace Talks Cancelled

Sanaa, May 26 (RHC)-- In Yemen, forces loyal to exiled President Abdu Rabbu Mansour Hadi have reclaimed the southern city of Dhale from Shiite Houthi rebels, marking their first major victory since Saudi Arabia began bombing the rebels in March.

Saudi-led airstrikes pounded the Yemeni capital Sanaa over the weekend as officials announced United Nations-sponsored peace talks aimed at easing the crisis have been postponed indefinitely.
