

Saudi Strikes in Yemen Hit UNESCO Site Old Sanaa, Killing Six

Sanaa, June 12 (RHC)-- Saudi-led airstrikes have destroyed houses, damaged buildings and killed at least six people in the old quarter of the Yemeni capital Sana'a, a UNESCO World Heritage Site.

Meanwhile, officials say another Saudi-led strike this week hit a public bus on a highway in southern Yemen, killing at least 20 passengers.

United Nations-backed talks on Yemen's crisis are scheduled for Sunday in Geneva.
