

Progressive forces in Argentina call for march against the election of Mauricio Macri

Buenos Aires, November 28 (RHC)-- The head of the Argentinian humanitarian and solidarity organization Mothers of the Plaza de Mayo, Hebe de Bonafini, called for a mass demonstration on December 10, the day when president-elect Mauricio Macri takes office.

The Argentinian activist said constant resistance will be provided in the defense of gains made possible under the previous governments of Néstor Kirchner and Cristina Fernandez.

Hebe de Bonafini warned against the dangers posed by the newly elected presidency and said that the Mothers of the Plaza de Mayo organization will use their civil right to repudiate the presence of Macri in the Government House as the new president takes office.
