

Israeli Ordnance Kills Gaza Child, Wounds Another

Gaza City, February 26 (RHC)-- A Palestinian child has lost his life and another sustained serious injuries when an explosive device that had been left from Israel's last military onslaught against the Gaza Strip went off in the besieged coastal enclave.

Palestinian medical sources, speaking on condition of anonymity, said the explosion took place in the city of Jabalia, located four kilometers (2.5 miles) north of Gaza City, on Thursday evening.

More than 7,000 unexploded bombs were left throughout the Gaza Strip following the Israeli military attacks against the impoverished Palestinian territory in summer 2014.
