

Parlasur Approves Protocol to Fight Zika carrying Aedes Aegipty Mosquito

Montevideo, Mar 14 (RHC) The Southern Parliament President, Jorge Taiana said the Parlasur will discuss Monday approving a protocol to fight and prevent mosquito Aedes Aegipty, transmitter of dengue, zika, chikungunya and yellow fever.

Monday's agenda for Montevideo, Uruguay, includes discussing the establishment of a special commission to address drug trafficking in the region, and boosting energy integration, both conventional and renewable, plus environmental matters like adopting mechanisms to control car pollution.
