

Minister of Science and Technology Visits Vietnam

Hanoi, May 31 (RHC-PL) -- Cuban Minister of Science, Technology and the Environment Elba Rosa Perez is in Vietnam for a three-day official visit.

During her stay, the Cuban official and her delegation will meet with Vietnam's Minister of Science and Technology Chu Ngoc Anh and with the country's Minister of Natural Resources and Environment Tran Hong Ha.

She is also scheduled to hold talks with representatives of the Vietnamese Academies of Science and Technology and Social Sciences, and tour the Hoa Lac High-Tech Park in the capital, as well as a solid-waste treatment plant on the outskirts of Hanoi.

The current visit is part of the high-level exchanges agreed upon between the two governments to advance cooperation in several sectors.
